WORK EXPERIENCE/ACTIVITIES

Student Researcher **June 2025 – July 2025**
UC Santa Barbara

- Collaborated w/2 peers to innovate & implement hybrid CNN–QCNN architecture using classical feature-map compression to reduce qubit inputs while maintaining accuracy for quantum image classification tasks
- Led algorithm development where prior work was limited
- Presented 12-pg paper in Capstone Seminar with 300+ attendees incl. PhD students & professors

Indian Classical Music Software Developer **November 2025 – August 2026**

- Compiled 1st public pure-melody & improvisation based "alapana" dataset w/400+ samples across 10 raga scales & published on Kaggle
- Balanced data from 4+ instruments ensuring generalizability
- Designed UI & UX for easy access across all age groups (9-70+ yr olds)
- Model used by 50+ concert-enthusiasts & beginner musicians to interpret live performances

Independent Machine Learning Research **September 2023 – July 2024**

- Benchmarked VGG-16 model against neuroradiologists for brain tumor diagnosis, achieving 13.98% higher accuracy than neuroradiologist classification
- Implemented data augmentation techniques to expand data-253 to 400 samples, enhancing model robustness
- Published 8-pg paper in Curieux Academic Journal

Notre Dame AI Club Co-Founder **January 2023 – May 2026**
Secretary, Event Lead, President

- Innovated game-based approach to teach AI algorithms/applications/ethics in bi-weekly meetings
- Grew membership 4 to 40+ & officers 3 to 6
- Drovebig-tech speaker events w/TSMC & hackathon collab w/2 clubs

San Jose Public Library "Ethics of AI for Kids" Program Founder & Lead **July 2025 – April 2026**

- Led 20 middle-scholars in weekly "AI-gone-wrong" case studies
- Facilitated 6 current-event Socratic seminars encouraging critical thinking of AI's future
- Created AI-themed "Among Us" & "Minecraft" games by adapting to students' interests
- Guided students' independent AI model projects to tackle real-world issues (hosted project showcase w/40+ attendees)
- Extended to spring by 6 kids' request

San Jose Public Library Mathematics Tutor **August 2024 – May 2026**

- Designed custom curriculums for 4 students linking math to their passions (gaming, art, storytelling, sports)
- Recorded & tailored weekly supplement videos to each students' needs; 2 students' improvement recognized in school
- Selected to share tutoring methods w/grp of 15 tutors, growing library program average attendance from 10 to 15 students

Inspirit AI Entrepreneurship Intern **March 2025 – May 2025**

- Authored & published 6 blogs on personal AI journey & ethical insights, leveraging SEO optimization to expand visibility under Shark Tank alum Maddie Bradshaw
- Led 3 external intern strategy-exchange meetings to boost engagement collaboratively
- Recognized as top 3/35+ interns for innovative poster design & invited to TA for summer program

AWARDS

Regents Scholarship **April 2026**

Issued by UCLA

- Top 1.5% of UCLA's admitted class based on exceptional academic achievement and promise

2025 Steven H. Strogatz Prize for Math Communication—Runner-Up **June 2025**

Issued by National Museum of Mathematics

- Translated Collatz Conjecture number sequences to musical piano phrases, illustrating universal patterns in math
- Judged on content, creativity, and communication by distinguished professor Steven Strogatz
- Animated video featured in the National Museum of Mathematics in New York

STEM Next Global Essay Contest—3rd Place in "Medicine and Psychology" **October 2025**

Issued by TechFest UK

- Top 3/700+ submissions worldwide
- Researched & authored 10-pg argumentative essay combining evolutionary, biological, and psychological perspectives to analyze AI's impact on humanity over time
- Interviewed Kaiser Permanente psychiatrist Darshana Pai to incorporate real-life patient experiences

CREST Gold Award **October 2025**

Issued by British Science Association

- Recognized for 70+ hours of independent research making original contributions to fields of technology and psychology

USA Computing Olympiad—Silver **December 2023**

Issued by USA Computing Olympiad

- Perfect score on December 2023 Bronze contest

National Merit Scholar **March 2026**

Issued by National Merit Scholarship Corporation

- Top 1% of PSAT test-takers in CA
- Awarded $2500 towards higher education

EDUCATION

UCLA **September 2026 – June 2030**

Bachelors of Science, Math of Computation and Physics

Notre Dame High School **August 2022 – May 2026**

- **GPA: 4.83/4.0, SAT: 1560**
- Highest GPA of graduating class
- AI Club (Co-Founder), Speech and Debate, Chamber Ensemble (Main Violinist & Composition Arranger), Peer Notetaker, FRC Robotics Programming Committee (Intercommittee Liaison & Design Workshop Lead), TASC Service (Meaningful Service Subgroup)

SKILLS & INTERESTS

- **Skills**: Java, Python, Machine-Learning Libraries, Object-Oriented Programming, Algorithm Development and Optimization
- **Interests:** Music Composition, Competitive Typing, Speedcubing, World History Trivia, Creative Writing
